Summary:

UI Developer with **3+ years of experience** delivering responsive and scalable **web applications**. Experienced in leading client-facing projects, including an e-commerce platform and a pet nutrition application, leveraging **React, TypeScript, Sass and Javascript** to build dynamic user interfaces. Honored as "**Outstanding Employee**" for exceptional performance at **Cognizant**. Skilled in cross-browser compatibility, **performance optimization**, and Agile development.

Work Experience:

Cognizant Technology Solution

Bhubaneswar, India

03/2022- current

Associate (Moment Content Ops)

- In this role working as a UI Developer in same team, supporting the front-end needs of a large-scale snacking and pet nutrition client project which is having back-end integration in PHP.
- Successfully delivered small sub-projects single-handedly, managing development, testing, and deployment with minimal supervision.
- Honored as "Outstanding Employee" for exceptional contributions and high-quality UI development delivery.

Programmer Analyst (Digital Engineering)

- Leveraging technologies like **Twig, Sass, and JavaScript** to build scalable, maintainable, and user-friendly interfaces.
- Collaborated with back-end developers, designers, and other stakeholders to deliver high-quality features and enhancements.

Programmer Analyst Trainee (Digital Engineering)

- Developed dynamic, responsive web interfaces using **React** and **TypeScript** for a major **e-commerce** client project, ensuring timely delivery with zero escalations.
- Played a key role in implementing complex UI components and adhering to coding standards, resulting in a seamless user experience.
